

Madison County Heart & Soul Leadership Team 2017-2020

Over the course of four years, many have participated in the Madison County Heart & Soul Leadership team's efforts to determine what matters most to the people of Madison County, to craft the Heart & Soul statements based upon survey responses and interviews, and to further the mission of the Heart & Soul initiative. This work could not have been achieved without this team's commitment, as well as the financial support of the Madison County Board of Supervisors and the Greater Madison County Community Foundation.
