

## Earlham Community Heart & Soul Leadership Team

The Earlham Leadership Team was organized August 2019 in collaboration with the Madison County Leadership Team. Earlham citizens participated in efforts to determine what matters most to the people of their community, as well as Madison County. They developed Earlham Heart & Soul statements based upon survey responses and interviews. This work could not have been achieved without this team's commitment, as well as the financial support of the Madison County Board of Supervisors and the Greater Madison County Community Foundation.
