

St. Charles Community Heart & Soul Leadership Team

The St. Charles Community Heart & Soul Leadership Team was organized August 2018 in collaboration with the Madison County Leadership Team. St. Charles community area citizens participated in efforts to determine what matters most to the people of their community, as well as Madison County. Contributing members of the team participated in the development of the St. Charles Heart & Soul statements, which were based upon survey responses and interviews. This work could not have been achieved without this team's commitment, as well as the financial support of the Madison County Board of Supervisors and the Greater Madison County Community Foundation.
